**DETAILED ACTION**

***Notice To Applicant***

1. This communication is in response to the application filed on 2/17/04. Claims 1-15 are pending. The IDS statements filed 2/17/04 and 4/3/06 have been entered and considered.

***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-15 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Hacker (6,988,075; hereinafter Hacker).

(A) As per claim 1, Hacker discloses a method of permitting controlled access to medical information comprising:

- (1) establishing a storage means for containing medical information (Hacker: col. 7, lines 21-27);
  - (2) establishing a means for accessing the medical information (Hacker: col. 7, lines 21-27); and
  - (3) controlling the means for accessing the medical information according to a type of entity accessing the medical information, wherein access is limited according to the type of entity (Hacker: col. 8, lines 4-17).
- (B) As per claim 2, Hacker discloses the method of claim 1, wherein the storage means is a central repository (Hacker: col. 7, lines 21-27).
- (C) As per claim 3, Hacker discloses the method of claim 1, wherein the means for accessing the medical information is controlled using a universally unique identifier (Hacker: col. 7, lines 60-63).
- (D) As per claim 4, Hacker discloses the method of claim 1, wherein said controlling step is overridden by a registered emergency provider (Hacker: col. 7, lines 66-67).
- (E) As per claim 5, Hacker discloses the method of claim 1, said controlling step further comprising notifying a patient that their medical information has been accessed (Hacker: col. 7, line 67-col. 8, line 3).

Art Unit: 3626

(F) Claims 6-15 substantially repeat the same limitations as those in claims 1-5 and therefore, are rejected for the same reasons given for those claims and incorporated herein.
